

Customize Your New Tub With Air

Customize your new Barclay bathtub with the wonders of air massage. Our new option adds 16 strategically placed air jets, powered by today's most reliable blower, to provide a complete body massage. Placement of the jets at the bottom of the tub ensures maximum bubble action for your massage. Each jet contains a backflow preventer and is also drained and dried by an automatic system purge run after each use, ensuring good hygiene and making the system virtually maintenance free. Control the intensity of your massage with the ergonomically shaped, water tight remote. Choose either white or black jets.

Air Massage can be added to most Acrylic, Copper or Resin tubs without claw feet. It is not available for cast iron tubs.

Order
AIR KIT 1-Air Massage with White Jets
AIR KIT 2-Air Massage with Black Jets

Ease Into The New Year With Barclay

Simplify your freestanding tub installations in 2019 using Barclay's new **Easy Install Tub Drain Rough-In Kit**. This kit can be easily installed with no under floor access. Tile your floor around the rough-in during construction and your tub drain will drop right into place when you install your tub. A re-usable cap is included allowing multiple air pressure tests if needed. Pipe and adaptors are constructed of PVC and compatible with 1½" male, 1½" female or 1½" threaded drains.
