BARCLAY

Vessels

Show a distinctive sense of style in your bathroom with a Barclay vessel sink. Crafted in artistic shapes these beautiful basins can be mounted on top of cabinets, console tables, custom shelves, or even dressers to elevate the design of your home to a new level. Barclay offers stunning designs that are further enhanced by the remarkable materials of which they are created - warm hand hammered copper, uniquely grained natural bamboo and teak. Our selection of natural stone offers one-of-a-kind creations in granite, marble, sandstone, travertine and our newly added petrified wood, riverstone and teak root. Of course, the pristine beauty and durability of fine fire clay and vitreous china remains a favorite. The basin that will individualize your bath or powder room awaits you at Barclay.

Barclay introduces the earthy spun vessels of Fango Bachas of Argentina to our line of fine lavatory sinks. These wonderful basins are individually molded on a potters wheel, then hand painted by skilled Argentine artisans before being baked to a hard ceramic finish with the appeal of natural stone. Simple shapes, subtle shades and lead-free materials combined for the tastefully styled bathroom.
